Male and Female.

By this statement it will be seen that the white females outnumber the white males by 505; and the colored females exceed the colored of Mr. Dennis Johnston, and after parlying males by 576; so that we have in the city 1.081 more females than males, an excess to be accounted for, in part, by the number of men at work abroad and also in a very considerable ston's and sign a receipt for the money. This degree by the earnage of the late war.

White and Colored. With a grave disregard of the principles of the 15th Amendment, Congress directed the ed from the mule's back and escaped into the Census Marshals to make, in their returns, a distinction on account of race and color. We are therefore enable to say that there are in this

This exhibits a very near approximation of the number of dwellings to the number of families; an unfailing sign of a thrifty community. A Comparison with Past Years.

We make up from these tables and the table furnished by the census of the two decades immediately previous, comparative statements of the population, dwellings, &c., of the city at each of the eras mentioned:

The favorable aspects of the tacts disclosed by the census are, considerable increase of gen eral population in number of families and in number of dwellings since 1860. The unfavorable facts are, a decrease in the white population and a want of proportionate increase in the number of dwellings as, compared with the number of families. From 1850to 1860, while the number increased but 477, we built 566 new dwellings, showing that not only accomodations, in separate dwellings, for the increased number of families, but that near y one hundred other families, which had previously occupied portions of dwelling-, had become thrifty enough to occupy entire houses. But in the past ten years the increase in the number of families has been 1,051, while dwellings have increased only 760, and when one remembers the character of the greater portion of those 760 dwellings added since 1860, as compared with the 566 resi dences erected during the previous decade, the small value of the increase at once appears. The census, however, makes a far better showing than might have been expected of a city whose back country was a desert, whose principal buildings and churches were barracks, whose port was blockaded, many of whose citizens were in exile, and whose limits were surrounded by guards, which torbade ingress or egress except under stringent regulations, during one halt of the time over which the last census extends. It is indeed a census of how much of the prosperity lost during five years of war has been regained during five years of partial peace, and in this view we have every reason to be

satisfied with it. We append a table of the population of Alexandria at each census since the adoption of the

In response to questions he said that himself and another colored man with whom he had been longboating in partnership had separated, and were seiling their property. Mr. Pulman suspecting something wrong, told him he would find him a purchaser if he would call at his Galliarder says :- "The appearance of a divi stand in the market. This he promised to do. but instead of coming on to town, he turned down the country. Mr. Pulman's suspicions being then almost verified, he sent his neighbor, Mr. Thomas Carral, armed with an empty revolver, across the country to intercept him. Mr. Carral met him in the road near the house with him awhile, agreed to give him \$80 for the mule provided he would go into Mr. John the thief refused to do. Mr. Carral then drew his unloaded revolver and told him he would take him and the mule too, but the thief jump woods. Slatterly, from whom it had been stolen, and upon restoring it to its owner received the reward. The thief is still at large, but Mr. Carral is on his track and thinks he will capture him.

> RADICAL MEETING. - A meeting of the Radical party of Mount Vernon township, Fairfax county, was held at Gum Spring School House, last Saturday evening, and was called to order by John A. Seaton, colored, of Alex andria, after which an election of officers took place, resulting as tollows, viz: President, William Ford, colored; Vice President, Lovelace Brown, colored ; Secretary, Joseph Fantery, colored. After the election the meeting was addressed by John A. Seaton, who counseled the Radicals to unite and marshal their forces for the fall campaign. He strongly advocated the claims of Mr. Lewis McKenzie for re-election to Congress. Richard Miles, colored, of Alexandria county, then made a speech strongly advocated the claims of Mr. McKenzie, as his past service, commended him to all"true Republicans." About 200 were present, a portion of whom were white. After three cheers for Lewis McKenzie and the Republican party, the meeting a ijourned to meet on Saturday the 10:h of September at 8:30 p. m. at Woodlawn School House.

BASE BALL IN FAIRFAX. - A match game of Base ball was played on Saturday last, near Harrison's grove, by the Rickety club of Fairfax and the Stonewall club of Manas-es. The game was well contested, but the Rickety club goaded by their late deleat put forth their strongest endeavors and scored 55 runs to 34 runs of the Stonewall. The batting on both sides was excellent. Mr. M. Harrison of the Rickety club was the only play r who made a home run. A large number of ladies were in attendance and encouraged the contestants by their bright smiles. At the close of the game the music of Prof. Cook's band attracted all to the grove, and soon the pavilion was crowded with the devotees of Terpsicore. Dancing was indulged in until 11 o'clock at night when the music ceased, and the large party quietly dispersed, regretting that the amusement could not be prolonged.

THE LATEST WAR REPORTS.

NEW YORK, Aug. 29 .- M. Galliarda's special to the Courier des E ats Unis from Paris, ast night, says Mc Mahon's communications with Merz and Boz ine are assured and confirms the reports of a French victory at S enay and a Prussian repulse at Verdun. M. sion of the enemy between Rheims and Soissons would seem to indicate that the invading wave will therefore come upon us by the val leys of the Aisne and the Oise. It matters little by how many routes the enemy marches hither. The entire circumference of our for tifications is in a formidable state of defence. All the roads have been obstructed, save only the railroads and canals; and many gates and posterns have been walled up. Yesterday the rai road bridge to Asnieres was blown up, and, in short, nothing has been left to chance. At the Ministry, I am informed that 'here is talk of removing the administration to Tours or beyond the Loire during the siege of Paris. This would be at once prudent and sensible. It is necessary that the Ministry should have elbow room. I shall desire to have it, too, and it is not impossible that I may follow the

SPECIAL NOTICES. A CHAPTER OF FACTS.

Space is valuable in a newspaper, and it is therefore proposed in this advertisement to condense a variety of facts, important to the pub ic, into a small compass. Those facts refer to Ho-tetter's Stomach B.tters-what that cele brated medicine is, and what it will do. In the first place then, the article is a stimulant, tenic and alterative, consisting of a combination of an absolutely pure spirituous agent with the most valuable medicinal vegetable substances that botanic research has placed at the disposal of the chemist and the physiciar. These in gredient are compounded with great care, and in such proportions as to produce a preparation which invigorates without exciting the general system, and tones, regulates and con-trols the stomach, the bowels, the liver and the

minor secretive organs. What this great restorative will do must be gathered from what it has done The case of dyspepsia, or any other form of indigestion, in which it has been persistently administered without effecting a radical cure is yet to be heard from, and the same may be said of bilious disorders, intermittent fever, nervous af fections, general debility, constipation, sick headache, mental despondency and the peculiar complaints and disabilities to which the feeble are so subject. It purifies all the fluids of the body, including the blood, and the gentlestimulus which i, imparts to the nervous system is not succeeded by the slightest reaction. This is a chapter of facts which readers, for their own sakes, should mark and remember. sug 29-eolw
